

Green Solutions

IT Solutions to Reduce Your Carbon Footprint...

As our eco-system propagates, organizations need to reduce their effect on the environment and improve their corporate responsibility to reduce their carbon footprint. Omni Business Solutions believes in combining innovative ideas, strategic partnerships, and practical uses. We look for methods to amplify efficiency, profitability, and sustainability by providing a solution that works in your organization today and in the future!

Green Data Center Solutions

Capitalize on improved IT infrastructure, virtualization and consolidation, reuse of waste heat, and more.

Infrastructure Strategy & Design

Discover Green IT opportunities, such as client devices, server-side computing and optimization of server farms.

Sustainable Desktop Strategies

Conserve resources without compromising service, performance or productivity.

Cloud Computing Solutions

Use only what you need, pay for what you use and keep power wastage and emissions to a minimum.
